# DRAWING

Vol. XV, No. 3

*The International Review published by The Drawing Society*

September-October 1993

Lawrence Markey, Inc., New York, has published a catalogue of the work of Jerry Zeniuk to accompany his current exhibition. As seen in the fully-illustrated catalogue, which has no text, Zeniuk's watercolors consist of simple shapes fabricated by fully charged brushes. These landscape-inspired designs are bright, bold, and representative of a close-to-nature attitude. An atmospheric minimalism informs the compositions.

The catalogue is available from the gallery at 55 Vandam St., New York, N.Y. 10013, for \$15 postpaid.
